in Alytus (Lithuania)

DAMTPself appointed

curator Chus Martínez

calls for meeting of the non-productive
psychic workers and data miners, unproductive
dead workers, life reproductive workers and cleaners
(industrialized and non-paid ones) to discuss strategies to
strike against bourgeois culture and to celebrate its agonies
due to vanishing access to production of whitewashing,
light and stylistics.

At the moment trying to formulate some key notes for the
meeting:

1. colonization-decolonization-recolonization of mind
2. psychic colonialism as based on linguistics and visuality
3. structural racism inherent in white eurocentrist culture
4. debienalization international// [not sure, but might be]
respond to the planned biennalization international to be held
later this year in the end of october -
<http://www.worldbiennialforum.org>
5. Strike out of the new issue of an art strike biennial for the year
2013.

You are welcome to Chus <http://alytusbiennial.com>

In solidarity with the miners of AMCUD and of ICU martyred by capitalist
collaborators, but who live on in the union of the dead and living
workers, we present the following images - copyright of the ANC -
legacy of humanity- We remind fellow workers of ANC, NUM and
beyond that the LETTER, NAME, NATION, SITUATION (whether a
country, a people, a race, an industry, a party or even a union) are the
0,1,2 and 3 dimensions of CLASS! The ICU were formed partly inspired
by the IWW and show how WAHDAT (the union) is only achieved when
KATHIRAL (multitude/ diversity) is also realised.

WE REMIND OUR CLASS ENEMIES THAT THERE IS NO WAY FORWARD
FOR CAPITALISM IS THE END OF THE AGE OF DIVINITY
